» **[7.1 Environment Committee - RE: Zero-Emissions Building Retrofit Strategy](#)**

City Council approved the Zero-Emissions Building Retrofit Strategy, which will guide the City to support building retrofits across the community. Buildings are one of the most significant sources of carbon emissions, accounting for 39% of the total emissions in Burnaby.

» **[7.2 Environment Committee - RE: Electric Vehicle \(EV\) Charging Requirements for New Non-Residential Developments](#)**

City Council received a report outlining a proposal for new set of EV requirements for new non-residential developments in Burnaby. These recommendations would support the creation of more EV charging stalls across Burnaby. Staff were directed to continue to engage with interested parties to determine the feasibility of these proposed requirements.
