

Don't *Leaf* It Alone

3 ways to dispose of leaf and yard trimming debris

Green Bin Collection Program (for yard trimmings and food scraps)

Leaves, yard trimmings and food scraps can all go in your green bin for weekly pick-up.

Backyard Composting

Place leaves in your backyard composter to make your own rich soil amendment! Pick up a composter for \$30 at the Burnaby Eco-Centre located at 4855 Still Creek Drive.

Burnaby Eco-Centre

Residents can drop off 100 kg of leaf and yard trimmings per day free of charge!
(Proof of residency required)

Leaves left or put onto City streets can potentially result in localized flooding due to clogged catch basins. Help us by removing leaves and debris away from the catch basins so the water can easily drain.
