The following is a zoning bylaw checklist and floor area calculation for building permit applications for new and additions to single and two family dwellings. The designer is required to fill out this checklist and do the floor area calculation to demonstrate the proposed dwelling complies with the Burnaby Zoning Bylaw. The applicant is required to submit this checklist at the time of application. Incomplete applications will not be accepted. Additional documentation may be required upon review by a plan checker. Please note that this checklist does not include all the requirements in the Zoning Bylaw. The designer is required to refer to the Zoning Bylaw for all applicable requirements.
