Notification of Reliance upon Registered Professional and Fee Reduction

Building Address:

Building Permit #:

Pursuant to Section 11 of the Burnaby Building Bylaw, the City has relied upon the certification of registered professional engineers and/or an architect to issue the above noted Building Permit.

As part of that certification, each registered professional has provided assurance that the design and plans submitted in support of the application for the building permit substantially comply in all material respects with the BC Building Code and other applicable enactments relating to safety.

As such, and upon receipt of Letters of Assurance, we have reduced the fee for the building permit by 2.5% up to a maximum of \$531.00. This reflects the costs of the work that would otherwise be done by a building inspector to determine whether the plans, or aspects of the plans that were certified, do in fact comply with the BC Building Code and other applicable enactments relating to safety.
